Message from the Guest Editors

Dear Colleagues,

This Special Issue will publish papers by authors who presented at the ICEUBI2019. We want to reinforce the internationalization of the event and raise its standard of quality by considering this Special Issue, following materials topics on:

Aeronautics and astronautics: materials and structures, aircraft, and spacecraft engineering;

Architecture: construction, urban planning studies, projects, and plans;

Informatics: computer architecture, human interaction with the computer, computer graphics and visual, and smart systems;

Textile science and technology: fashion design, biotechnology, technological materials and nonconventional or high technology materials, and advanced materials and processing;

Civil engineering: structures and materials, geotechnics, transportation, sustainability and green structures, bridges, dams and special structures, foundations and modeling of the land, building materials, and rehabilitation of buildings;
Electrotechnical and mechanical engineering: industrial design, bioengineering, electrotechnology, CAD/CAM, prototyping and product design, mechanics of materials, and mechanical systems.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

Professor of Biomedical Engineering, Professor of Bioengineering, Professor of Experimental Surgery, Associate Dean—Research and Graduate Studies, Department of Biomedical Engineering, Faculty of Medicine/Faculty of Dentistry, Duff Medical Science Building, Room 313, 3775 University Street, Montreal, QC, H3A 2B4, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers fourteen comprehensive topics: Biomaterials; Energy Materials; Composites; Structure Analysis; Porous Materials; Manufacturing Processes; Advanced Nanomaterials; Smart Materials; Thin Films; Catalytic Materials; Carbon Materials; Materials Chemistry; Materials Physics; Optics and Photonics; Corrosion; Building Materials. The distinguished and dedicated editorial board and our strict peer-review process ensure the highest degree of scientific rigor and review of all published articles.

Materials provides an unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), Ei Compendex and other databases. Citations available in PubMed, full-text archived in PubMed Central.

CiteScore (2018 Scopus data): **3.26**, which equals rank 97/439 (Q1) in 'General Materials Science'.
