Geotechnical solutions for environmental problems

Organisers:

Maria Eugênia Boscov - meboscov@usp.br

António Alberto Correia - aalberto@dec.uc.pt

Isabel Gonçalves Falorca – ifalorca@ubi.pt

Abstract

The International Seminar "Geotechnical Solutions for Inter-Regional Environmental Problems Portugal-Spain" will feature a special session on "Geotechnical solutions for environmental problems" to be held during the ICEUBI2019, in November 27, 2019, from 11:00 am to 12:30 pm. Details of the International Seminar can be found in the seminar website:

https://sgubi2019.wixsite.com/sgubi2019

Justification

The special session will provide an opportunity for active participation with the view of advancing the state of knowledge in the field of Environmental Geotechnics. This session is intended to be a small-scale, but high-quality event focusing on the promotion, dissemination and exchange of knowledge (research findings and practice) that will enable problem solving and projects to be planned, designed, constructed, operated, and decommissioned in a manner to ensure sustainable economic development and environmental preservation. Topics relevant to the session include, but are not limited to, geotechnical solutions of relevance for:

- Waste management
- Rehabilitation and development of infrastructures
- Technological and natural hazards
